**PROGRESSIVE AMERICANS.**

Paris Papers Say We Will Quadruple the Value of the Philippines.

Paris, Aug. 20.—The Soleil, in an article on America in the far east, says that the Americans will quadruple the value of the Philippines, and that Manila will rival Hong Kong. The installation of the Americans at Manila will give them a preponderant situation in Chinese waters, because a line from San Francisco would be incomparably superior to the lines from Liverpool to Singapore. The paper adds that there is no market the Americans desire more eagerly than that of China. They have been forestalled there by the other powers, but they will assuredly overtake their rivals by the rapidity of their progress.

The Temps, in an article on the peace negotiations between Spain and the United States, says that America will not stand intervention. It is not to France's interest to gratuitously compromise herself with a country called to play a much more active part than heretofore in great international affairs. She has all the reasons to go beyond her sphere, as she has little respect from the eventual gratitude.

**TROOPS THAT WILL GO OUT.**

Washington, Aug. 20.—The president has informed the senators who are here to keep various regiments in the service, that no regiment would be mustered out simply because it has been the last to be mustered in. The regulation to muster out all the troops under the second call first has been abandoned, and the efficiency of the regiments will be the first thing to be considered.

## FOUR LIVES WERE LOST.

Terrible Fatalities at a Conflagration at Hot Springs, Arkansas, Early This Morning.

The Property Loss Is About Fifty Thousand Dollars—The Fire Started in the National Hotel.

Hot Springs, Ark., Aug. 20.—The National Hotel, the Windsor Hotel, the Kentucky stables and several cottages were burned this morning at 2 o'clock, the loss being about \$50,000. Many persons are missing and five persons are known to be lost. The following are known to have lost their lives: Abe Matthews, Greenville, Miss.; W. H. Wells, residence unknown; B. T. Wells, Market Tree, N. T.; and an unknown man. The flames started in the National Hotel.

## THE GREAT PARADE

Came Off Today at New York According to the Schedule.

The Big Iron Clads Fired a Salute at General Grant's Tomb at Riverside Park.

New York, Aug. 20.—Admiral Sampson's fleet of iron clads was sighted off the Highlands at 5:30 o'clock this morning. At 8 o'clock they were in the lower bay headed for the Tompkinsville anchorage. The great naval parade came off today as scheduled. The start was made from Tompkinsville anchorage at 10 o'clock, with Mayor Van Wyck and a delegation of citizens on the flagship. At the tomb of General Grant a salute of twenty-one guns was fired.

## ANGLO-RUSSIAN SITUATION.

London, Aug. 20.—Among well informed persons the Anglo-Russian situation is still regarded most apprehensively. It is generally conceded that Russia is beginning to chafe at the displayed undue haste in her exactions from China, and her interference with proposed British concessions.

## HOBSON'S REWARD.

Washington, Aug. 20.—R. P. Hobson was today promoted to a full-fledged naval constructor, with rank of lieutenant.

## A STEEL TRUST HATCHING.

Chicago, Aug. 20.—The indications are that a steel trust will be formed including every steel and iron concern in the country, and may even include the Rockefeller and Carnegie companies.

## THE OPERA HOUSE.

The Opening for the Season Will Take Place on September 3d.

Manager Terrell Has Booked the Best Attractions in the History of the House.

The formal opening of Morton's opera house for the season of '98 and '99 will take place Saturday evening, Sept. 3. The popular scenic melo-drama by Ligeia J. Carter, "Knobs of Tennessee," which received its initial production at Chicago two weeks ago, and scored a great hit, will be the first attraction. It will play one week in St. Louis before coming here.

There will follow it some of the most celebrated attractions on the stage, but Manager Terrell is not yet ready to make them public. The opera house has been renovated and repaired all over, and Manager Terrell, who has been in the business for several years and knows what he is talking about, says that his bookings this year are better than ever in the history of the house. He has spared nothing to get the best productions to be had, and the people will find that Paducah is to get the very best that is on the road this season. The attractions will not come very close together until cooler weather arrives, but next month some of the best on the road will visit Paducah. Manager Terrell will do all in his power to merit the large patronage that will no doubt be accorded the plays he brings here, and will see that nothing is spared to make the public well pleased with his class and selection of attractions.

## TERRIBLE SUSPENSE

Hangs Over Spain Pending the Settlement of Peace—The Papers Dare Give No News.

A Prominent Carlist Leader Predicts That Spain and the United States Will Have Another War Some Time.

Madrid, Aug. 20.—The censorship of the press grows more rigorous daily and the newspapers now say absolutely nothing about the terms of peace. This silence has such a deadening effect on public opinion that many believe if the United States should demand the Philippines now, they would be yielded by the Spanish government with considerable haste in order to end the terrible suspense.

## WANTS ANOTHER FIGHT.

Madrid, Aug. 20.—Marquis de Lerralbo, principal head of the Carlists, when the signing of the protocol became known here, said: "If we were going to die simply for the sake of dying, we might as well have died with honor. This disaster probably does not end the struggle between chivalrous Spain and plutocratic mercantile America."

## WATCHING US.

Austria Taking Great Interest in the Development of America's Policy.

## PYTHIANS IN INDIANA

Biennial Encampment Near—A List of Brigadier-Generals.

Twenty Years Ago the Uniform Rank Was Originated in Indianapolis.

Indianapolis, Ind., Aug. 20.—Four thousand tents in which members of the uniform rank Knights of Pythias will live during the biennial encampment of the order next week have been put up in the woodland along Fall creek, north of the city.

Twenty years ago this month the uniform rank was originated in this city. Now it has more than 50,000 members in uniform, all who have been urged to visit the city on this occasion. In connection with the encampment the meeting of the supreme lodge of the Knights of Pythias, a delegate body representing every section of the United States, will be held here. The local committees have arranged to care for 40,000 visitors and there are assurances that almost that many will be here.

The camp of the uniform rank will be established on Monday morning. It will be under the command of Philip T. Cogrove of Hastings, Mich., commander-in-chief and supreme chancellor of the order. The next in line will be James R. Carnahan of this city, major general of the order. Edwin L. Brand of Chicago is chief of staff with the rank of brigadier-general. Fifty-five regiments make up the body of men in uniform, and the colonel of every regiment has assured the local committees that he will be here with a part or all of his command.

Gen. Carnahan estimates that there will be 20,000 men in the parade next Tuesday afternoon. The division will be made up of the uniform rank, and the second division of the subordinate lodges. The programme provides for prize drills every day in the week and, the prizes being large, the best drilled companies in the order have all notified the commanding officers that they will participate. The daily sessions of the supreme lodge will be held in the ball of the house of representatives in the capitol, beginning on Tuesday morning. It is proposed to abolish the supreme assembly, which is composed of the brigade commanders, and the proposition, it is predicted, will bring on a fight in the lodge. The biennial convention of the Rathbone sisters will be held at the same time as the encampment. The Fifth Illinois will arrive at Lexington this afternoon from Newport News.

## PUMPING STATION.

Work Soon to Begin on it—Trouble Over the Plans—Type-Writer Joke on Mayor or Lang.

Sewerage Committee to Meet Tonight—Councilman Elliott's Story—Other Municipal Matters.

The work of constructing the pumping station for the sewerage will likely begin in a few days. The city now has a clear title to the property, secured through the courtesy of Supt. Harahan, of the Illinois Central, and all that now stands in the way is the incomplete condition of the plans. Contractor Katterjohn has the contract for building the station, and desires to put up the kind of structure that suits him best, claiming that the specifications leave it largely optional with him what kind of a house it shall be. The sewerage committee, however, is of a different opinion. It does not recognize Mr. Katterjohn at all in the work. Its contract is with Mr. Linn White, and to him it will look for a suitable pumping station, which the contract calls for.

The contract with Mr. White specifies that the station shall be complete, and the question for the sewerage committee is what constitutes a complete one.

In the absence of drawings or plans, all questions which may arise are to be left to the city engineer, whose interpretation of the contract shall be conclusive, according to the contract.

It is understood Mr. Katterjohn says no provisions are made for windows, doors or a roof to the pumping house, and he will charge the city extra for putting them in. The sewerage committee, however, will have the station constructed in accordance with its own ideas, and if there is anything extra to be paid, Mr. Katterjohn will have to look to Contractor White for it, and not to the city.

The sewerage committee will meet tonight with Mayor Lang, to make final arrangements for the plans.

Mayor Lang has a new typewriter—a machine. He does his own typing.

Yesterday a young lady from Metropolis went to the city hall and asked to do some writing on the machine, which permission was accorded her.

When she had finished her work, she thanked the mayor, and added gratefully, and to the amusement of all present:

"Why, Mr. Lang, I'm so surprised to see you mayor, I expected to find some 'large gentleman' mayor of Paducah, when I came up!"

The crowd inferred that she took the mayor to be a "small man," instead of a "large gentleman."

"Crip!" Wilkins, a well known crippled character, this morning applied for admission to the city hospital. He has consumption, and claims he is in a pretty bad shape. The mayor declined to issue a permit claiming that Wilkins belongs to the county and should go to the poor farm.

Yesterday afternoon Mayor Lang had an appointment with Councilmen Elliott and Davis. They met at the city hall about 2 o'clock, and the mayor in a short time excused himself and hurriedly left without having transacted the business for which they met. He expected to return at once, and the councilmen remained there for several hours waiting for him, but it was dark before he returned. This morning he apologized and explained that he had been called suddenly away to fill another engagement, and could not get back. The incident elicited from Councilman Elliott a reminiscence of his earlier days.

agree—thanks to my superior attractions—as you will see later, I offered to give her the money and let her go away. She said it would take \$5, and I gave it to her. Three days later she married that fellow, and I have always been satisfied that it was my money that paid for the license."

The streets and sidewalks where the grass has been removed are greatly improved, and when the workmen have gone all over the whole city, there will be reason to be proud of the looks of everything. The grass has long been a great nuisance.

## ELOPEMENT.

Paducah Young Lady Runs Away From Dawson With Her Sweetheart.

Marriage of Miss Sallie Ragdale to Mr. James West—Both Popular Young People.

Mr. James West, a well known motorman on the Paducah Street Railway line, and Miss Sallie Ragdale, the pretty and popular young cashier at the Harbor-Pitts Shoe company, eloped from Dawson, Ky., yesterday to Metropolis, Ill., and were married at the latter place. The elopement was a surprise to the many friends of the young people, who have many friends to wish them great happiness.

The bride is a daughter of Mr. and Mrs. J. M. Ragdale, and resides on South Ninth street.

**FAMILY BE DARNED.**

But Bailey Wanted to Know About His Game Chicken.

Hopkinsville, Aug. 20.—J. L. Bailey, who disappeared rather suddenly from this city several months ago, leaving his family in the European hotel, which he had been conducting, has been heard from.

It was reported that Bailey had gone to the war and had been wounded in the fighting before Santiago. This was an error. Bailey was not thirsting for Spanish glory. He wrote to a friend in this city several days ago from Cairo, Ill., where he is now living, and at work. He says he is coming back to Hopkinsville in the fall. He expresses considerable anxiety about the welfare of a certain game cock, which he left in the custody of his friend. He says he has entered the bird in a cock main soon to take place.

## ABOUT REVENUE STAMPS.

Postmaster Fisher desires to call attention to the fact that revenue stamps, or those with "I. R." on them, are not good for postage. The post office department here as well as in other places is having no little trouble with the stamps, many of which are put on letters, either through error of ignorance. The letters have to be returned to the sender or else sent to the dead letter office.

## DON'T LIKE THE POPULISTS.

Mr. Jeff Bean is one of the board of election commissioners in Marshall county, and according to reports he is thinking seriously of resigning because the other two members, he says, are populists. He claims to be a democrat.

## NOTICE TO THE PUBLIC.

Persons who have paid a license and have failed to have a bond signed are hereby given notice that unless said bonds are signed within five days from this notice, warrants will be issued against them for violation of the license ordinance. Bonds for license are most neglected.

## TO SAVE THE PHILIPPINES.

Spain Will Insist That Manila's Fall Shall Have No Effect on the Peace Negotiations.

Jaudenes Ceded the Whole of the Philippine Archipelago—Peace Negotiations on This Point May Be Prolonged.

Madrid, Aug. 20.—The government has resolved to insist that the capitulation of Manila after the signing of the protocol shall have no effect in the peace negotiations unfavorable to Spain.

In any event, the government holds that the capitulation having been signed by the commander of the town does not entail the surrender of the whole of the Philippines. All the indications are that the peace negotiations will be prolonged. The opposition factions are redoubting the agitation for convoking the Cortes, and it is said that Senor Sagasta begins to hesitate, though he shares the opinion of Duke Almodovar de Rio, the foreign minister, as to the inconvenience involved in a meeting of the Cortes, and a series of debates during the peace negotiations.

It is possible that the Cortes will meet after the elections to the councils general, about the middle of September.

## JUDENES CEDED THEM ALL.

London, Aug. 20.—The Hong Kong correspondent of the Daily Mail says: "The terms of the capitulation of Manila, as agreed upon Saturday between Gen. Jaudenes and Gen. Merritt, include the cession of the Philippine Archipelago to the United States. An American naval officer who arrived from Manila on the Zafiro tells me that the Americans practically walked into Manila. The operations, he says, were confined to the Malate side of the city, where the Spaniards had a fort and two lines of trenches. The troops walked through the Malate river and walked up the beach as though going to lunch meeting practically no opposition."

## ENTERTAINMENT A SUCCESS.

## HAS ANDREE BEEN FOUND?

A Dispatch From British Columbia Says That the Daring Aeronaut Has Been Heard From.

Not Known Whether He Is Dead or Alive—It Has Now Been Thirteen Months Since He Sailed Away.

Toronto, Ont., Aug. 20.—A special dispatch from Victoria, B. C., says that news has been received from the North that Andree and his balloon have been heard from. No particulars are given whether the daring Arctic explorer is dead or alive. Andree has been away thirteen months.

## SEEKS A COALING STATION.

Russia Will Be the First Power to Make a Move in the Philippines.

St. Petersburg, Aug. 20.—Russia is secretly negotiating with Spain for an island or coaling station in the Philippines. Negotiations have already proceeded far enough to cause the Russian government to feel assured Spain will give favorable consideration to the proposition. It will naturally follow, if Russia succeeds Germany and France will seek the same privilege.

## CATO'S CASE ON TRIAL.

The trial of Will Cato, charged with the murder of an old peddler named Cornick Askew, on a shanty boat near Star Line Works last summer, is now on trial in the circuit court at Edwille and will not be finished until some time next week. One of the young men charged with the crime is now serving a life sentence. Askew, it will be remembered, was killed with an ax, and the body was thrown into the river.

## PEACE BARBECUE.

Preparations are being made for a big "Peace Barbecue," to be given at La Belle park on Saturday, the 3d of September. There will be speeches by the most prominent speakers in this section, among whom will be Congressman C. K. Wheeler, and Hon. Bud Reeves, the two candidates for congress.

## NOTICE TO CONTRACTORS.

Sealed proposals will be received at the Mayor's office until noon (12 o'clock) Monday August 23d, for repairing what is known as Sixth street bridge (now Bridge street) across Island creek according to plans and specifications, which may be seen in the city engineers office. A good and sufficient bond will be required of the successful bidder.

## GRASS HOPPERS.

They Have Flooded the County, and Now Pay the City a Visit.

Myriads of Them Are Now in the City and Are Doing Much Damage.

The K. K. grass hoppers that invaded the county a few weeks ago, and wrought great destruction in certain localities, have now swarmed in many parts of the city, and some little damage is reported in a few sections.

The insects are more numerous than has been known for several years past, but their depredations have been confined principally to the rural regions. They are very thick in many other counties also, especially Graves.

SATURDAY, AUGUST 20, 1898.

KENTUCKY may be too prone to resort to lynch law, but we must draw the line on being reproved by any of the states over the river.

We fear that the genial editor of the Evening News is not wholly reconstructed, but he will be by the time Wheeler is re-elected to Congress.

The Evening News says "the Democrats of Western Kentucky are willing to give the election bill a fair trial." Exactly so. But will the News please tell us what it means by the word "fair"? It's a new one in Democratic lingo.

SPEAKING of the County Election Commissioners, the Evening News says, "Men of the highest character for integrity and fairness have been chosen in every instance." The News is Goebelized, all right enough.

It will now be in order for the News to pass an expunging resolution relative to its editorials on the Goebel bill which were a feature of that paper from the time that infamous measure was conceived until the News received "more light" recently.

The democrats of California in convention assembled declared that they were not in favor of an "aggressive" policy of territorial expansion, but were unalterably opposed to returning to Spain any territory that has been won by the expenditure of American blood or treasure. All of which shows that their western democrat is not at all behind the procession. Although not "aggressive," he proposes to keep everything in sight.

### THE WAR HERO.

The record of Admiral Dewey from the day he entered Manila bay and destroyed the Spanish fleet has been that of a skilled diplomat and a statesman as well as a brilliant fighter. The questions that have come up before him for immediate decision have been those which involved possibly peace or war with Germany. Any slip of his might have involved this nation in another war which would have involved the peace of all Europe. On the other hand, the honor and pride of the American people were in his keeping, which must be held sacred, even at the risk of a great war. Furthermore Admiral Dewey had to answer all these questions alone. His only communications with the government at Washington have been to state facts, to recount important events, to relate history. Advice he could not ask, nor get. He had a treacherous enemy to deal with, treacherous allies to restrain and treacherous friends to watch. But he has performed his trying duties with consummate skill and unparalleled success. A world is amazed at his wisdom and discretion, and his country is proud of his patriotism, proud of his great achievements, and has placed the name of Dewey at the head of its long list of heroes, the stories of whose deeds will live as long as the republic endures or patriotism continues to be a virtue.

### IS ANDREE DEAD.

The Intrepid Explorer's Balloon Not Heard From But Once in Thirteen Months.

London, Aug. 20.—A cable dispatch says the friends of Herr Andree, the intrepid explorer, have given him up for dead. Thirteen months ago he set out on his perilous journey from Spitzbergen to the North Pole in a balloon, expecting to return in two months. One pigeon returned in a few days, telling of his safe aerial voyage, and saying other messages would be sent. But no other has ever come from Prof. Andree, and he is now mourned as dead.

### PENSION LIST INCREASES.

Nearly Thirteen Thousand More Than There Were in 1897.

Washington, Aug. 20.—The annual report of Commissioner of Pensions H. Clay Evans, will show that at the close of the fiscal year 1898, there were 993,714 pensioners on the roll of the bureau. This was a net increase of 12,960 over the previous year. There were dropped from the rolls during the year on account of deaths 33,691, and for remarriage and other causes 12,960 pensions were discontinued.

## A BIGGER NATION.

Ex-Congressman McCreary Favors Holding the Philippines. It Is the Great Market of the Future.

Also Favors the Pushing Through to Completion the Nicaragua Canal—Talk With President McKinley.

Washington, Aug. 20.—When former Congressman McCreary, of Kentucky, called on the president recently, it was at once rumored that he had been invited to become a member of the peace commission. He and Maj. McKinley served in congress together, and have been long-time warm friends, besides which Mr. McCreary was for several terms a member of the house foreign relations committee, and therefore would seem to be qualified for the peace commission work. The former congressman from the Blue Grass state denies the rumor, however, and says emphatically that not a word intimating his probable appointment passed between him and the president.

Mr. McCreary talked entertainingly, however, of the administration's policy and the foreign relations of the United States. Said he: "The provisions of the peace protocol seem to be unanimously endorsed by the people of the United States. The people are also unanimous and enthusiastic in their admiration for the bravery and splendid achievements of our army and navy."

"It was expected that Spain would be required to relinquish all claim to Cuba, and it is a logical result of the war that Porto Rico and other islands in the West Indies should be ceded to the United States."

"I am not in favor of giving up any place over which our flag floats. It is wisely provided in the protocol that the United States shall occupy and hold the city, bay and harbor of Manila pending the determination of the control, disposition and government of the Philippines. We must preserve and hold forever that which Dewey and his brave men so gallantly won."

"The problem of the Philippines is not difficult if we consider it from a purely patriotic and American standpoint. Progress, wealth, population and the demands of agriculture, industry and manufacture change the situation. While it was proper for our people to oppose territorial expansion for many years, except where the territory was contiguous, conditions have changed. The days of our isolation are over. To preserve our leadership among nations, we must be controlled by great events and the demands of the times. China and Japan and the southern provinces of Asia constitute the great commercial theatre of the future, and present attractive markets for our agricultural, industrial and mechanical products. They are logically our customers and allies in trade, for they are nearer to us than to England, Germany or France."

"The war and the demands of commerce have given us the Hawaiian islands by annexation. It remains to be seen how we will utilize and appreciate these important acquisitions. Our great navy will have to be supplied with coaling stations, and Hawaii and the Philippines will have to be used. "For the benefit of our navy and for the benefit of commerce and trade the Nicaragua canal should be built, but the United States should buy the land through which it is built and own and operate the canal independently and exclusively. All trade routes from our country for steam vessels pass Cuba and Porto Rico in going to the Nicaragua canal. The construction of the Suez canal destroyed the equilibrium of commerce and benefited England and remote nations. The United States can adjust this equilibrium and benefit our people by the construction of the Nicaragua canal."

### INDIGNANT REPUBLICANS.

They Are Incensed Over the Action of State Election Commissioners.

Frankfort, Aug. 20.—The list of county election commissioners as mailed by the state commissioners, has created the greatest indignation among republicans, gold democrats and populists. Many leading republicans do not hesitate to say the state commissioners overdid the thing in shutting the republicans out of representation in 22 out of 119 counties, and predict several contested election cases in the next congress and possibly other unpleasant complications.

It is rumored here Commissioner Ellis is not altogether in sympathy with the high-handed and arbitrary course of the two other commissioners. This is said to account for his absence from the meetings, and it is even intimated he would like to retire from the board, but both of these stories lack verification.

The war department is not flinching many volunteer regiments that want to be mustered out, and may have to cut down the army by arbitrary order. California democrats declare themselves "opposed to the surrender to Spain of any of the territory that has been acquired by American valor," although at the same time opposing "an aggressive policy of territorial expansion."

New York will extend a cordial reception today to the victorious fleet under Admiral Sampson.

## SOCIETY NOTES.

THE MAID OF VANITY FAIR

The maids of Vanity Fair, Ohio! This is a warning to fate that's sung them. For they are taught to sit in a careless row, And a man must come with his hair just so. And a collar that's neither too high nor low, And a family tree and money to blow, And then if he's thoroughly nice you know, He's given a place among them.

But few can be found, and they won't go round— The look of the maid that shows it. For the fun of the world is being a girl, With a man near by that knows it.

The maids of Vanity Fair, Ay, ay! 'Tis a pitiful lot they're missing. The maids that work are the maids that play. For the postman's whistle comes twice a day. And the grocer's lad has a taking way.

And the man on the beat has a word to say And there's never the Devil and all to pay For an innocent bit of kissing. Be she dark or fair, there are swains to spare 'Tis the look of the maids that show it, For the fun of the world is being a girl With a man near by that knows it.

A dance that is being looked forward to with pleasure by the young society people, will be given Monday evening in honor of the fair visitors now in our midst.

In honor of Miss Louise Brockton, Miss Marie Noble's guest, of Dyersburg, Miss Mattie Davis entertained last evening at the residence of Capt. Joe Fowler.

Mrs. Robert Becker Phillips entertains this evening in compliment to Miss Brockton, Miss Noble's guest from Dyersburg.

Mr. Albert Foster left Friday evening for St. Louis.

Mr. and Mrs. Armour Gardner have returned from their bridal tour.

Mr. and Mrs. W. E. McGary have taken rooms at the Palmer for the winter.

Miss Beatrice Whitcomb, of Terre Haute, Ind., arrived in the city this morning and is the guest of Miss Emma McKnight.

Mr. F. M. Hewitt the popular druggist has resigned his position with Mr. W. B. McPherson and has accepted a position with Dr. D. A. Yeiser & Son, on South Third street.

Department of the summer girl at fashionable summer resorts—Advice of a knowing matron:

With the advent of summer comes the ever sweet and bewitching "Summer Girl." Then it is the watering places and fashionable summer resorts are overflowing with idle pleasure seekers, the feminine portion ranging in age from the charming bud of sixteen and the somewhat more pensive belle of the season, to the withered acrimonious gossip. Although the summer resort is not the only abode of the inveterate gossip, as a general rule it is here she is in her greatest element. For here the restraints of social life are somewhat laid aside, and mind and body are relaxed from the strain of business worries and the care of every day life.

Here nature has been lavishly endowed with all that is beautiful and pleasing to the eye. The blue expanse of the heavens seems deeper, the scent of the flowers sweeter, and the carol of birds more musical than elsewhere.

Then comes the delightful picnics and excursions with a jolly party of pleasure seekers, and the trips across the lake by moonlight. To the thoughtless girl brimful of life and fun, it is all that is entrancing and dream-like. But alas! there is ever a serpent in this charming Eden, and how easy it is to forget that such a personage as a gossip can exist amid such pleasant surroundings as are afforded by our numerous summer resorts. (Of course there can be no set rule for conduct and correct demeanor under such circumstances. The girl who is taking in the pleasures of the delightful resort, should remember that the simplest act and the most innocent intention may very easily be construed into a far different motive. Therefore the safest and wisest plan is to conduct one's self in such a manner that there can be no opportunity afforded to gossiping tongues.)

This does not necessarily imply that a girl shall conduct herself in a stiff and formal manner. Be jolly in a decorous way; make yourself as agreeable and entertaining to your friends as you are able. Try as far as possible to be on amiable terms with the various acquaintances whom you meet, and, above all, stand on the right side of the gossip. Always speak a good word for every one (if it is a possible thing; if not, remain wisely silent), and always do a kind act if you find the opportunity. Never forget that a lady will conduct herself as such, under any and every circumstance. In this way the summer girl may enjoy herself to the utmost and gain hosts of friends, who will ever be ready to speak in her praise. If, in spite of all precaution, the tongue of the gossip begins to wag, what is the result? By her up-right behavior, kindly demeanor towards all, and her kindness to the afflicted, she soon disarms all unjust

### FASHIONS FOR THE FAIR.

Military trappings for women's wear are being manufactured for the fall gowns and a few fashionable girls have got hold of some of them.

There are eapulettes, adjutants' cordings, and band master's array of gold braid and trappings. One girl has a cloth suit of hussar blue with an eapon jacket with slender black velvet revers and straps of gold and black braid on each side as well as at the wrist of the very small sleeves. The black collar and belt are fastened with gilt buttons and a vest of yellow chamois is fastened with smaller gilt buttons.

The skirt has graduating lengths of black and gold braid on each side. A pretty blouse coat that is strictly up to date is in the latest favor colored cloth trimmed with applique of panne, a kind of plush velvet or, perhaps more nearly allied to the silk of which gentlemen's hats are made. It formed a pattern on the back and round the shallow basque. It is fastened with three handsome buttons of light green color and the

revers of satin were covered with tiny tuckings; the color was painted. The new material "panne" will be used in parts of entire costumes and is very effective.

### ANOTHER TRIAL TRIP.

Wm. Schumacker, manager of the Auditorium here a few years ago, is again in the city. He is the man who has been working on an air ship in Golconda, Ill., for two or three years past, and he now talks of having a trial voyage some time in the near future. The first trial trip was scheduled to come off over a year ago, but it never came. He says he will attempt to go from Golconda to Paducah.

TO JOIN THE NAVY.

Two Paducah Boys Go to Chicago to Be Examined.

Two well known Paducah boys, Howard Anderson and Harry Craft, leave Monday for Chicago to be examined at the Masonic Temple for admission to the navy. They are to become apprentice boys on some of the warships, if they pass the examination, and they will likely pass without difficulty, as they are both bright boys.

Young Anderson was formerly a messenger boy at the Western Union and afterwards the Postal company, and the other young man is a son of Conductor H. E. Craft, of the Illinois Central. Their many friends will wish them success. They go from here highly recommended.

NEW WALL PAPER FIRM.

Messrs. Chas. F. WILL HE GO?

Marshal LaRue Receives Notice From Headquarters.

Deputy U. S. Marshal LaRue is in receipt of a letter from Marshal James, requesting him to get all his papers in shape and be prepared for any sort of order.

What this means is not clear. As stated a day or two ago the corps of deputy U. S. marshals is to be reduced from 22 to 15, and who is to go is not known. Those who remain are likely to be transferred to other parts of the state.

Deputy Marshal LaRue, however, thinks he has simply received one of the letters sent to all the deputies and that it has no special significance for him. He will no doubt remain in Paducah.

## THE KENTUCKY GLASS AND QUEENSWARE CO.

THE INFANT IS SIX DAYS OLD

Before any impression is made upon the eye by light. The normal eye in youth is capable of distinct vision, from a few inches from the eye to the farthest visible object. As we grow older the eye never grows old for distant vision—only for close; that's why we need glasses after our fortieth year. Then we need the right kind. That's the kind you get of Dr. J. Harraes.

TONGS OR SPECTACLES.

Rufus Choate, the great lawyer-actor, having arrived at the old sighted stage, did not wish to commence the use of glasses. In pleading a certain cause, he kept holding his manuscript farther and farther off in order to see. This so annoyed the judge that he at last burst out with: "Mr. Choate, I would advise you to get one of two things—either a pair of tongs or a pair of spectacles."

I cannot give a pair of tongs, but I can give you a careful examination and if you need spectacles I can make them, guaranteeing satisfaction OR NO PAY. EYES TESTED FREE.

OFFICE: PALMER HOUSE.

BAD NEGROES.

Three Arrested Here This Afternoon, Had a Gambling Outfit.

Officer Gray arrested three negroes this afternoon near the railroad on suspicion. A boy informed him that they were wanted in Princeton, Ky., for robbing an O. V. conductor, and that he knew one of them was guilty. The negroes were soon in custody, and gave the names of: Jordan Eli, Pembroke, Ky.; Luther Drake, Bowling Green, and Isaac Willis, of Hopkinsville.

In a grip was found a complete gambling outfit, such as are used in crap games in the woods, with a full complement of loaded dice, cards, oil cloth, lamps and in addition two revolvers.

They were locked up to await further developments.

WOMAN ARRESTED.

Fannie Matthews Arrested This Afternoon.

Fannie Matthews, a white woman, was arrested this afternoon by Officer Potter on a charge of keeping a bawdy house. She lives in the first ward, and the arrest was the result of a family quarrel. She gave bond for her appearance Monday morning.

CARNIVAL POSTPONED.

The bicycle races and carnival to be given by Prof. Friend have been postponed to Sept. 5 and 6.

## "LET US HAVE PEACE"

"Peace hath her victories no less renowned than war."  
"To the victors belong the spoils."

To our customers belong the profits this week. We have met the enemy and we've got 'em.

WE HAVE SILENCED THE FORTS of high prices with the bargains we sold to the trade. Our figures, at all times the LOWEST, now knock all the rest in the shade. From our dress goods may yet be selected some choice things in hot weather stuff, on which we won't quote any prices, though others do that for a bluff. These goods you can have as you wish them; yourself make the prices to suit. And when you have spent a few dollars you get a fine picture to boot. We are selling the handsomest DRESS SKIRTS ever sold in this end of the state; for less than the goods can be bought at, all home made and right up to date. Our LADIES WEAR pleases the fairest, and looks lovely on creatures less fair; Our styles, which are ever the rarest, are charming; fair women declare. And the men folks never forget us, when wearing NICE SHIRTS and FINE SHOES. They know we keep the assortment from which they can easily choose.

Our SHIRTS are the best and cheapest on top of the earth—or below—and every last pair is as "solid" as the rocks in the Forts of Morro. You may fancy it is quite out of reason, but a trial will prove it is true. Just to wind up for the season, FORTY CENTS buys a LOW-QUARTER SHIRT.

In GAITERS and BUTTONS and LACES we can fit every foot to a "T." "Cousin George, how dainty your feet look!" "I wear Dorian's shoes—don't you see?"

Rich people are pleased with the beauty of our LINENS, LACE CURTAINS and RUGS, and other folks think it a duty to follow the taste of "big bugs."

Our trade is increasing and healthy—our prices creating a mass; we hold fast the trade of the wealthy, and "the poor we have always with us."

Our PICTURES—the ARMS of IMMORTALS—in every "sweet home" ought to be, when just for a few dollars' purchase, you're welcome to some of them free.

All will admit the above contains "more truth than poetry." Everybody come to this winding-up sale of the season.
